A glimpse into my journey

Gerrie Pretorius

*Music was my first love
but travel is my passion.*

To understand the meaning behind “Leef Jou Reis,” one must discover, take detours, and embrace the alternative routes or the roads less travelled. To eat and mingle with the local people and truly comprehend their culture, we have this special opportunity to become authentic travellers, rather than mere tourists visiting a country.

Growing up in the small town of Mossel Bay, I have had the privilege of setting foot on 7 continents and explored over 85 countries. With all this experience and passion for travel, we would like to extend a warm invitation to you to join our global travel family.

We are the “cool kids” of travel and we do it in style...

Welcome to Leef Jou Reis

Here, we enter the realm of the legendary Great Migration—an epic seasonal journey in which millions of wildebeest, zebra and other species travel more than 1,800 kilometres between Tanzania's Serengeti and Kenya's Maasai Mara.

This extraordinary movement of wildlife is one of nature's grandest displays of instinct, survival and endurance.

Along the way we also visit Olduvai Gorge, one of the world's most significant paleoanthropological sites, where evidence of early humankind offers a fascinating glimpse into our shared origins.

We arrive at our accommodation in the Serengeti during the afternoon. After settling in, we enjoy dinner as evening falls over the surrounding wilderness.

DAY 5: 10 August 2027

Central Serengeti National Park

A full day of exploration awaits in Serengeti National Park, one of Africa's most celebrated wildlife reserves and a UNESCO World Heritage Site spanning 14,750 km.

The Central Serengeti, particularly the Seronera Valley, is renowned for its rich wildlife and thriving lion population. Seasonal herds draw both grazers and predators, creating one of the most dramatic ecosystems on Earth.

During our guided game drive through open grasslands, acacia woodlands and rocky outcrops known as kopjes, we may encounter elephants, buffalo and hyenas. With more than 500 bird species and 70 large mammal species, the region offers exceptional photographic opportunities.

In the late afternoon, we return to our accommodation to unwind, enjoy dinner and reflect on the day's sightings.
